## ANALYTICAL REPORT

Sanjida is found to be attentive in the classrooms. However, her performance in the exam is not true reflection of what she actually learned. She has exam phobia and gets nervous during exam. She recites Quran very nicely and is near to memorize the Amma Para. Her father died in 2014 and now she lives with her grandparents. Her grandparents have no fixed income source and live on the help of others. Sometimes, it is difficult for her to concentrate with her study at home.
